Section 1: Identification

Product identifier

Product Name
• Stabilit Composite Glass-Fiber Reinforced Polyester Panels

Synonyms
• Glasliner (Wall, Ceiling Tile, Foundation Liner), Poliacryl, Polylit, CR Fire-Snuf, Tred-Safe, CR Acryloy, Opalit, Steeline, Versalit, Pultrux

Relevant identified uses of the substance or mixture and uses advised against

Recommended use
• High Impact Liner for Refrigerated Trailers, Truck Bodies, Containers and Railcars. Liners and Roofs for Refrigerated and Dry Trailers, Truck bodies, Contain-ners and Railcars. Interior Wall and Ceiling panels where sanitary, durable, easy to clean finishes are required. Exterior Corrugated Daylighting and Opaque Panels for residential, commercial and industrial use. Gel-Coated and Non Gel Coated Exterior panels for use as sidewalls and roof panels on recreational vehicles. Structural fiberglass profiles to substitute traditional building materials, such as steel, aluminum and wood.

Details of the supplier of the safety data sheet

Manufacturer
Stabilit America, Inc.
285 Industrial Drive. Moscow, TN 38057, USA.

Emergency telephone number
1800-238.5546.

Section 2: Hazard Identification

United States [US]
According to OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012
• Not classified

Label elements
OSHA HCS 2012
Hazard statements
• No label element(s) required

Other hazards
OSHA HCS 2012
• Under United States Regulations (29 CFR 1910.1200(c) - Hazard Communication Standard), the product(s) listed above are exempt as article(s) under stated normal conditions of use.

Classification of the substance or mixture

WHMIS
• Not classified

Label elements
WHMIS
• No label element(s) required

Other hazards
WHMIS
• Under Canadian Regulations (Workplace Hazardous Materials Information System (WHMIS) - Hazardous Products Act (HPA), Section 11(1)), these product(s) are exempt and considered manufactured article(s) under stated normal conditions of use.
Section 3: Composition/Information on Ingredients

Substances
- Material does not meet the criteria of a substance.
Mixtures
- Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), the products listed above are exempt as articles under stated normal conditions of use. In Canada, these products are considered manufactured articles under the Workplace Hazardous Materials Information System (WHMIS) and are exempt.

Section 4: First-Aid Measures

Description of first aid measures

Inhalation
- First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If signs/symptoms develop, move person to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing. If signs/symptoms continue, get medical attention.

Skin
- First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Wash skin with soap and water. If signs/symptoms develop, get medical attention.

Eye
- First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If contact with material occurs flush eyes with water. If signs/symptoms develop, get medical attention.

Indigestion
- First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If signs/symptoms develop, get medical attention.

Most important symptoms and effects, both acute and delayed
- Under normal conditions of use, no health effects are expected.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
- No specific actions or treatments recommended related to exposure to this material.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media
- In case of fire use media as appropiate for surrounding fire.

Unsuitable Extinguishing Media
- No data available.

Special hazards arising from the substance or mixture

Unusal Fire and Explosion Hazards
- Like other organic building materials (e.g. wood), panels made of fiberglass reinforced plastic resins will burn. When ignited may produce dense smoke very rapidly.

Hazardous Combustion Products
- All smoke is toxic.

Other information
- As an article this material does not legally require an SDS.
### Advice for firefighters
- Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection.

### Section 6: Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

<table>
<thead>
<tr>
<th>Personal Precautions</th>
<th>No special precautions expected to be necessary if material is used under ordinary conditions and as recommended.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergency Procedures</td>
<td>No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended. Use normal clean up procedures.</td>
</tr>
</tbody>
</table>

**Environmental precautions**
- Avoid release to the environment.

**Methods and material for containment and cleaning up**
- Carefully shovel or sweep up spilled material and place in suitable container.

### Section 7: Handling and Storage

**Precautions for safe handling**

<table>
<thead>
<tr>
<th>Handling</th>
<th>Use good safety and industrial hygiene practices.</th>
</tr>
</thead>
</table>

**Conditions for safe storage, including any incompatibilities**
- Protect from moisture. Store in a cool, dry, well-ventilated place.

### Section 8: Exposure Controls/Personal Protection

**Control parameters**
- No applicable exposure limits available for product or components.

**Exposure controls**

| Engineering Measures/Controls | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |

**Personal Protective Equipment**

<table>
<thead>
<tr>
<th>Respiratory</th>
<th>In case of insufficient ventilation, wear suitable respiratory equipment.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Eye/Face</td>
<td>Wear safety glasses.</td>
</tr>
<tr>
<td>Skin/Body</td>
<td>Wear appropriate gloves.</td>
</tr>
</tbody>
</table>

**Environmental Exposure Controls**
- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.
**Section 9: Physical and Chemical Properties**

**Section 10: Stability and Reactivity**

**Reactivity**
- No dangerous reaction known under conditions of normal use.

**Chemical stability**
- Stable under normal temperatures and pressures.

**Possibility of hazardous reactions**
- Hazardous polymerization will not occur.

**Conditions to avoid**
- No data available

**Incompatible materials**
- No data available

**Hazardous decomposition products**
- No data available

Potential Health Effects

**Inhalation**
- Acute (Immediate) ・ Under normal conditions of use, no health effects are expected.
- Chronic (Delayed) ・ Under normal conditions of use, no health effects are expected.

**Skin**
- Acute (Immediate) ・ Under normal conditions of use, no health effects are expected.
- Chronic (Delayed) ・ Under normal conditions of use, no health effects are expected.

**Eye**
- Acute (Immediate) ・ Under normal conditions of use, no health effects are expected.
- Chronic (Delayed) ・ Under normal conditions of use, no health effects are expected.

**Ingestion**
- Acute (Immediate) ・ Under normal conditions of use, no health effects are expected.
- Chronic (Delayed) ・ Under normal conditions of use, no health effects are expected.

Section 12: Ecological Information

**Toxicity** ・ Non-mandatory section - information about this substance not complied for this reason.

**Persistence and degradability** ・ Non-mandatory section - information about this substance not complied for this reason.
Bioaccumulative potential • Non-mandatory section - information about this substance not complied for this reason.

Mobility in Soil • Non-mandatory section - information about this substance not complied for this reason.

Other adverse effects • Non-mandatory section - information about this substance not complied for this reason.

Section 13: Disposal Considerations

Waste treatment methods

Product waste • Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste • Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14: Transport Information
